

WABC
VOCAL SCHEDULE
September – December 2008

Pray.

Take the time to find a song that glorifies, uplifts the name of Jesus.

Try to memorize your song...practice, practice, practice...expression in your voice and body

As a Worship Leader, I have to be careful in choosing songs and elements that go in a worship service. There are some songs in the Christian Music Industry that are great for times of personal worship and reflection, but not necessarily the greatest for corporate worship. As you choose a song for a worship service, make sure the lyrics are true to God's Word...we're not honoring the Lord if the congregation has to guess the meaning of the song. Make sure it's not "fluff." I'm praying for you. I know it can be difficult...there are tons of songs to choose from. That's why you need to begin "now" to find the one you and others will fall in love with...a song that honors the Lord.

**Please inform me of your song by Wednesday prior to the Sunday that you are scheduled to sing.
You should have plenty of time...don't wait till the last minute.**
